Over 30 persons crammed the Liberty ISD meeting room at last nights' Board meeting. Many were Afro-America parents of students in the District. **John White**, of Ames, spoke to the Board about the meeting held in Ames Saturday night concerning the treatment of football players by the Coaching Staff. White said it was not a racial issue, and praised the Board for having the meeting Saturday, during trying times. White did say that they were worried about the Coaches' disrespect of the players and the use of profanity. White said that Head Coach **John Hacker** told them at the Ames meeting that profanity was used at times in front of the players, but most of the time it was in the heat of battle. White said that he was pleased with the out come of the meeting, but that they would request a special board meeting.

-VOLUME 10 NO. 204 WEDNESDAY OCTOBER 19, 1994-

****

We apologize for not publishing the "Shine All Nine" Radiogram yesterday. Most of our Liberty and Dayton delivery locations were closed due to flooding.

****

Liberty County Judge Dempsie Henley and Liberty Mayor Paul Henry have issued what is best called a mandatory evacuation order for all persons that live in the low lying areas along the Trinity River, including the South Liberty Oil Field. After hearing a report from Clay Kennelly, of the Department of Public Safety, the two County officials issued the joint order late Tuesday afternoon. Kennelly said that the amount of water coming down the Trinity from the Lake Livingston Dam will be fives times as much as in 1990, and that he fears lives will be lost if everyone does not leave the low lying areas. The order urges everyone that lives in subdivisions along the Trinity to leave immediately. A massive evacuation effort, that includes all County emergency personnel, has been organized. Anyone that needs help getting out of a flood prone area should call the Liberty County Sheriff's Office at 336-4500.

****

Liberty City Manager Norman Dykes also issued an evacuation order Tuesday. Around 2:30 yesterday afternoon, Dykes urged the voluntary evacuation of Travis Park due to high water over the entrance to the subdivision. He said that by today high profile vehicles and boats could be the only way to make it in or out of the Travis Park subdivision.

****

Judge W.G. Woods has announced that the capital murder trial of Ronford Lee Styron will be postponed until 9am Thursday. The trial was to resume today, after being postponed Tuesday. Judge Woods said that he has been unable to contact all of the jurors, due to very little long distance service yesterday. Judge Woods asked that jurors call his office, at 336-4668, to report on their status.

****

The American Red Cross shelter in the Liberty VFW Hall will be moved to Dayton today. Fire Chief Jamie Galloway said that the shelter will be moved to the 1st Baptist Church of Dayton's Family Life Center. Galloway said the Center is larger and has shower facilities. He said that emergency personnel will make the move. Sue Edmondson, of the Red Cross, said that 80 to 100 people stayed at shelter Tuesday.

****

All Liberty County schools are closed again today. Classes at Lee College have also been cancelled.

Guilty of Capital Murder was the verdict issued to **Ronford Lee Styron** yesterday in **Judge W.G. Woods' 253rd District Court**. The verdict was rendered by the 6 man, 6 woman jury in the guilt-innocence phase of Styron's trial around 2pm Monday, after they took less than 2 hours to come to the verdict. Styron was found guilty of the 1993 beating death of his 11 month old son, **Lee Hollace Styron**. The punishment phase of the trial continues today in Judge Wood's Court. Since Styron was found guilty of capital murder, the only two punishments the jury can decide on are life in prison, or death by lethal injection.

****

VOLUME 10 NO. 206 FRIDAY OCTOBER 21 1994

Late last night it appeared that the flooding situation in the **City of Liberty** had stabilized. After the area west of North Main, between Jefferson and Grand, was inundated with flood waters for the second time in three days late Wednesday night, City Officials said they expected only a small rise in the flood waters last night, and hoped that they would start to recede today. City crews lost the battle to the flood waters in the early hours of Thursday morning, having to evacuate Regency Place, the Hillside area, and apartments along Cook Road. Around 2am, **Baptist Hospital Liberty** and the **Golden Charm Nursing** Home were evacuated. Displaced residents had stay out of their homes last night, and the City issued a curfew for the hours between 9pm and 6am today. **HUD Secretary Henry Cisneros**, and **Congressman Charlie Wilson** came to town yesterday to view the County's flood area, and both pledged Federal aid for flood victims.

****

Here are tonight's confirmed high school football games for tonight. The **Livingston at Dayton**, **Hull Daisetta at Hemphill**, and the **Barbers Hill at Anahuac** games will be played as scheduled at 7:30 tonight. The **Hardin at Huffman** game has been cancelled, and will not be played at a later date. The game will not count on either teams' record. The **Liberty vs Hardin Jefferson** was still on hold late last night. **Panther Coach John Hacker** said that the schools' superintendents will meet early today to make the final decision. Hacker said best bet is that the game will be played Saturday at 2pm, in Liberty.

****

The Houston Housing Authority has now given the go ahead to the **Liberty Housing Authority** to begin issuing temporary certificates for housing for displaced flood victims. A hay barn owned by L.J. Chachere was completely destroyed by fire Saturday night. According to **Dayton Fire Chief, Terry Boyett**, the fire occured around 9pm Saturday in Chachere's hay barn located behind his feed store on FM 1960 in Dayton. It took firemen until 4am before they could leave the scene. Boyett said that there were between 8,000 and 10,000 bales of hay in the barn. Although there is no official cause of the fire, Boyett said that lightning from thunder storms that rolled through the area Saturday night, could have ignited the barn. The hay was still smoldering late Sunday.

It was the defense's turn to call witnesses in the capital murder trial of Ronford Lee Styron yesterday, in Judge W.G. Woods' 253rd District Court. The prosecution rested Tuesday afternoon, and defense attorneys called a series of 14 family members to testify in Styron's trial. A major controversy occured when it was discovered that defense witness, Bradley S. McDaniel, had been in the courtroom, and heard testimony, before he testified. McDaniel said that he heard the testimony of Wallace Clark. Styron's brother, concerning weekends the three families spent together. Judge Woods allowed McDaniel to only testify about the times Clark was not present at the gatherings. Judge Woods chided defense attorneys Gary Bunyard and Walter Fontenot for allowing the breach of rules to occur.

Testimony in the Capital Murder trial of **Ronford Lee Styron** began yesterday in **Judge W.G. Woods' 253rd Disrict Court.** Styron faces the death penalty if convicted of the beating death of his 11 month old son last October. The several witnesses took the stand yesterday including Dayton Police Officers, the Harris County Medical Examiner, and the foreman of the Grand Jury that indicted Styron. Also testifying was **District Attorney Mike Little.** Little took a tape recorded statement from Styron the night his son was taken to the hospital. That statement was played in court. In his statement Styron said that three days earlier, he was giving his son medicine with an eye dropper. Styron said that the child spit the medicine out, and that made him mad, so hit him on the left side of his face with his fist. The Medical Examiner testified that Styron's son died due to massive brain hemorrhage. Testimony in the trial continues today in Judge Woods' Court.

The Liberty County Commissioners Court is expected on Monday to amend the budget of County Emergency Management Coordinator, Jim Mitchum. When the Commissioners approved this fiscal year's budget last month, Mitchum's budget was cut to $10,200. County Judge Dempsie Henley said that he expects the Court to raise Mitchum's budget to last year's level of $15,600, or $5,200 more, at next Monday's meeting. Judge Henley said this move would insure that all of Liberty County qualified for Federally funded flood insurance, by having a full time emergency management coordinator. The Commissioners Court did not meet yesterday, due to a meeting in Corpus Christi.

A pre-hearing conference for former Liberty Mayor C. Scott Parker was held yesterday in Judge J.C. Zbranek's 75th District Court. Parker's attorney, Mike Hinton, of Houston, requested additional records from the Liberty City Council meeting of August 10th last year, and from the Texas Rangers' investigation. District Attorney Mike Little said that they would cooperate in any way they could. Also, Hinton asked Judge Zbranek that all indictments against Parker be tried at the same time. But Little told the Court that, under law, the State is the only one that can request consolidation of all indictments. Hinton said he would research the law, and that the hoped Judge Zbranek would rule on the matter before jury selection begins on October 31st.
